## 7.2 – Best Practices

### 7.2.1 – Describe at least two institutional best practices

**BEST PRACTICE – 01 Computer Skills on Office Automation** Objectives: • To train students base level of computer skills inspite of having only theory paper on Computer Applications. • To give practical sessions and use computer laboratory optimally. • To equip students to know basic skills of computer and also Office Automation comprising of MS-Word, MS-Excel, MS-Powerpoint and Internet. • To enable them to prepare for competitive examinations both online and offline mode. Context: During the post accreditation, based on the feedback from different stakeholders, based on the feedback, suggestions from different stakeholders, IQAC has recommended to conduct special activities on Computer Skills for Students. For BA students as per the prescribed syllabus from university, they need to study a paper on Computer Application only with theory portion but no scope for practical sessions. Hence, keeping this in mind, based on students' feedback, suggestions, college has given scope for students to learn fundamentals of computers including MS Office comprising of MS-Word, MS-Excel, MS-Powerpoint, etc. Most of the students are from rural belt and economically weaker sections. Most of them do not afford to pay the fees for learning Computer Skills outside the campus. Hence, after getting these feedback and also giving scope for students to learn computer skills, college has introduced special sessions entitled, Computer Skills on Office Automation. Practice: Even though BA-IV students have to study Computer Application, only theory portion as per the prescribed syllabus and not having scope for practical session, the present scenario of the market trend, higher education, etc., knowledge of computer is very much essential for every individuals. Hence, college already establish computer laboratory. Frequently computers are updated and provided necessary software including internet connectivity. A separate time table is prepared and instructed all the students to attend the practical classes as per the scheduled time table based on roll numbers. Students are allowed to practice in the computer lab. College has hired qualified teacher to engage the classes. College has adopted the syllabus pattern of B.Com. where it has given ample scope for learning Office Automation. The duration of the course is of 2 months. To know the students abilities on office automation, computer faculty conducts tests. The overall syllabus is customized by college alone and students who successfully completes the course, they would get certificate from the college. Evidence of Success: The knowledge on Fundamentals of Computers and Office Automation helped good number of computers. Some of the students got placed at private sector after the completion of their graduation. Most of the students who all have taken part in this session have expressed their contentment and gratitude to the college for taking this special effort. This course has helped students for continuation of higher education, employable through competitive examinations, etc,. To run this course, financial burden is taken only by college. No fee is collected from students. Problems encountered and Resources Required: This crash course is run on free mode with an intention to equip students on computer basic skills. For the maintenance of computers, payment of temporary staff is managed by college alone. Due to the shortage of available financial resources, some times, it became challenging to maintain. **BEST PRACTICE- 02 : Enhance Reading Habit among students** Objectives: • To educate students the value of reading. • To train students development of concentration. • To enlighten students the consequence of dependence of Mobile Technology. • To prepare them to be competent to face present challenges. Context: Due to the advancement of mobile technology, good number of students deviated from reading

habit but study only at the time of examination and are prone to usage of mobile. With the help of advancement of mobile technology, students can use it effectively to learn lot of value based contents but based on the surveys, findings and current trends, students are using mobile technology for amusement, entertainment instead of using the technology for learning subject related topics, etc. To prepare them competent academically and also for competitive examination, where students must develop the art of reading text books, reference books, magazines, journals, periodicals, etc., college has motivated all the students and encouraged them to use available library resources effectively through respective mentors. This has become a unique effort of the college during the year. Practice: IQAC has taken this initiation with an intention to develop the reading habit among students, college has encouraged every students to spend their leisure time to step into library to read text books, periodicals, magazines, journals, etc. To experiment this exercise, we encouraged slow learners along with advanced students to spend minimum 1 hour time at the library and make effort to read the text book, magazines, etc. We have selected only few students from slow learners and advanced learners for this experiment. Students are instructed to switch off their mobile and concentrate on reading. Senior faculty members have guided students to focus on reading from the books, magazines, etc. Students also encouraged to read spiritual, moral based books so as to develop concentration and enhance reading culture. Evidence of Success: Even though at the level of students learning stages, reading is a must for every student. Due to the diversification of students attention towards mobile technology, we have put an additional effort to encourage students to spend their valuable time at the library and also given them some additional text books to those who have been selected for this purpose. During the year, overall observations highlighted that, gradually students are developing the habit of reading along with mobile technology for their career prospects. Slowly and steadily this practice has become motivation to students and resulted in their semester end result. Problems encountered and resources required: Financial resources are utilized for the augmentation of learning resources including e-learning resources. This practice has recorded good track record of semester end result. Walk in ratio to the library is gradually increasing. The same information is also made available on college website to make it known to different stakeholders.

### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Under the banner of Karnatak University affiliated colleges, our's is the prominent and eminent educational institution with the core vision of providing higher education to downtrodden, blinds, economically weaker sections. Right from its inception, good number of students have educated and got placed at different sectors and outgoing students from the college continued for higher education after their graduation. His holiness Late Shri Ganayogi Pandit PANCHAXARAI GAVAI is known in the state of Karnatak and as well to the whole of India through his contributions in the field of music, art, religion and philosophy. He was blessed by his Holiness Late Sri. Guru Kumar Maha Shivayogi of Hanagal. His contribution for the richness of the Indian culture is phenomenal. Though he was blind, but he had strong inner eye with which he developed vision that achieved miraculous performance during his life time and afterwards. His contribution in the field of music is worth mentioning and had

unique achievement in Karnatak and Hindustani music a rare specially in deed. The flavour of his music has spread far and wide in the country. His Holiness

Late Shri. Ganayogi Pandit PANCHAXARA GAVAI went around the villages and collected the donations to run a school ofmusic for blindstudents to give them a new vision through which they could lead a respectable life and fine emancipation. Starting of such a project was first of its kind and stands tall as an achievement in the cultural history of mankind. After the demise of PANCHAXARA GAVAI his abled student with command on three languages. His

Holiness Dr. Shri Pandit Puttaraj Gavai succeeded the Sri. Veereshwar Punyasharm. He was guiding force for various institutions. At Ninetyone he was active and concerned about the welfare of the blind and the disabled in the community apart from establishing institutions for common public especially the down trodden and poor. He had never been deterred by blindness. He transalated

Basava Purana in Hindi. Translated Shri Tontada Siddalingavijay Puran in Sanskrit. He excelled in poetic abilities by composing Shri Kumar Vilas Kavyam and Shri. Matkumar Geet. In recognition to his contribution the Government of

Karnatak Presented him State award " Sangeet Vidwan". For creating a ust society it si needless to mention about the fare practices in our routine life.

It is being ably done through Puranas and Kirtanas which are nothing but interpretations of our epics in such a way that even an illiterate man follow the values of life to move up in the ladder of self realization. In many ways

Veereshwar Punyashrama can be compared to Mint which incessantly has been providing these social workers in the society. Blindness for those who have studied here has never been any limitation. Appreciating this yeomen service of this Veereshwar Punyashrama the Rotary International has contributed substantially. Dr. Pandit Puttaraj Gavai contribution is exemplary in nature. Education has been accorded top priority in the Ashram activities especially keeping in view of the massive disadvantaged population in the rural areas.
